

IVIN PRATHISH AUSTAN A

FULL STACK SOFTWARE ENGINEER | REACT.JS | NODE.JS | POSTGRESQL

Abu Dhabi, UAE | Open to Relocate | Employment Visa | UAE/WhatsApp: +971 54 725 4262 | +91 95004 16612 | a.ivinaustan@gmail.com | Portfolio: ivinaustan.in | LinkedIn: linkedin.com/in/ivin-austan | GitHub: github.com/ivin-austan

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 6 years of experience building, enhancing, and supporting web applications and SaaS products. Strong in React.js, JavaScript, TypeScript, Node.js, Express.js, REST APIs, PostgreSQL, MongoDB, SQL, HTML5, CSS3, and Tailwind CSS. Experienced in end-to-end product development, reusable component design, state management, authentication and authorization, workflow automation, database integration, debugging, performance optimization, production support, and Agile development. Proven experience owning business-critical applications and delivering multi-level approval workflows, automated notifications, audit trails, and document-processing solutions.

TECHNICAL SKILLS

Front-End: React.js, JavaScript (ES6+), TypeScript, JSX, HTML5, CSS3, Tailwind CSS, Responsive Web Design

React Ecosystem: React Hooks, Context API, React Router, Zustand, Tanstack Table, Tanstack Query, Client State Management, Server State Management

Back-End: Node.js, Express.js, PHP, CodeIgniter, REST API Design & Integration, authentication & authorization, client-server architecture, Email integrations, Role-Based Access Control (RBAC), Cron jobs.

Databases: MongoDB, PostgreSQL, MySQL, SQL, ClickHouse, database querying and data integration

Engineering & Tools: Git, GitHub, Docker, Linux, Jira, DBeaver, Microsoft Power Platform, debugging, code review, defect resolution, Agile development, Notion.

Quality & Performance: Cross-browser compatibility, responsive design, API testing, performance optimization, accessibility, production troubleshooting

PROFESSIONAL EXPERIENCE

Software Developer | Galfar Engineering and Contracting WLL Emirates

May 2025 - Present | Abu Dhabi, UAE

- Architect, develop, and maintain full-stack business applications using React.js, Node.js, Express.js, and PostgreSQL across 5 business departments.
- Build multi-level approval workflows with rule-based routing, role-based access control, audit trails, document management, PDF generation and merging, automated email notifications, escalations, and real-time process tracking.
- Develop and integrate REST APIs connecting React front-end applications with Node.js/Express.js services and PostgreSQL databases.
- Implement new applications and business features based on management requirements, while resolving defects to improve functionality, performance, usability, and operational reliability.
- Analyze reported issues, reproduce defects, identify root causes, and deliver maintainable fixes across web application layers, resolving 100+ issues to date.
- Collaborate with stakeholders to clarify requirements, validate changes, and support stable releases in a business-critical environment, while also contributing to automation tasks on Microsoft Power Platform.
- Contribute to front-end and full-stack development using modern web technologies, reusable code practices, and structured version control workflows.

Associate Software Engineer | CapeStart Software Private Ltd.

December 2021 - May 2025 | Nagercoil, India

- Implemented and demonstrated new features for a US-based, globally used SaaS email product, improving product functionality and user experience.
- Resolved 50+ high-priority customer-reported production issues and critical defects by investigating application behavior across UI, service, and data layers, documenting root causes, and coordinating fixes with engineering and product teams to improve reliability and reduce support workload.
- Participated in feature validation, regression testing, defect triage, release support, and continuous improvement activities.
- Contributed to a PHP version upgrade and helped implement production monitoring to support stable service for key applications.

- Served as interim Scrum Lead, facilitating daily stand-ups and enhancing cross-team coordination to ensure on-time sprint deliverables.
- Partnered with Product Managers to define and scope complex features, translating requirements into actionable development tasks.

PROFESSIONAL EXPERIENCE - CONTINUED

Product Coordinator - Fullintel | CapeStart Software Private Ltd.

January 2021 - December 2021 | Nagercoil, India

- Contributed to feature implementation and functional testing to improve product usability and application quality.
- Bridged communication between users, product stakeholders, and developers by clarifying requirements, reproducing issues, and validating solutions.
- Supported issue prioritization, user acceptance activities, and delivery coordination to improve customer satisfaction.

SELECTED PROJECTS

Techno Computers - E-commerce | technocomputers.org.in

Developed and deployed a production e-commerce platform supporting product discovery, cart, checkout, and online purchases, serving 100+ real users. *Technologies: React.js, Node.js, Express.js, MongoDB.*

Millow - Real Estate Web Application | millow-frontend.onrender.com

Built a Zillow-inspired property discovery interface with searchable listings and a responsive, component-oriented user experience.

Technologies: React.js, JavaScript, JSX, Node.js, responsive UI, API integration

InnovateHub - Public Forum | innovatehub-q233.onrender.com

Developed a community forum experience for publishing and interacting with public discussions.

Technologies: React.js, JavaScript, Node.js, Express.js, MongoDB

IV Chat - Real-Time Chat Application | iv-chat.onrender.com

Developed a browser-based chat experience focused on real-time user communication and responsive interaction.

Technologies: React.js, Node.js, Express.js, Socket.io, real-time communication concepts

ACHIEVEMENTS

- Superstar Award - Q4 2022, CapeStart Software Private Ltd - Recognized for outstanding performance and contribution.
- Superstar Award - Q3 2021, CapeStart Software Private Ltd - Recognized for exceptional performance and consistent contribution.

Certifications

- Completed Prompt Engineering for AI Bootcamp - Udemy
- Product Management – LinkedIn Learning

EDUCATION

Bachelor of Engineering in Computer Science and Engineering | St. Joseph's College of Engineering, Chennai | 2015 - 2019 | CGPA: 7.70/10

Higher Secondary Certificate | 2015 | 95% (1140/1200)

Secondary School Leaving Certificate | 2013 | 96.2% (481/500)
