

# IVIN PRATHISH AUSTAN A

## REACT.JS DEVELOPER | FULL-STACK JAVASCRIPT DEVELOPER

Abu Dhabi, UAE | Employment Visa | +971 54 725 4262 | +91 95004 16612 | a.ivinaustan@gmail.com

Portfolio: ivinaustan.netlify.app | LinkedIn: linkedin.com/in/ivin-austan | GitHub: github.com/ivin-austan

### PROFESSIONAL SUMMARY

---

React.js and full-stack developer with 5+ years of experience supporting and enhancing web-based products. Skilled in JavaScript, React.js, JSX, Node.js, Express.js, PHP, CodeIgniter, SQL, and MongoDB, with hands-on experience implementing features, resolving production defects, testing releases, and improving application reliability and user experience. Experienced in cross-functional delivery for globally used software products and comfortable working across front-end interfaces, APIs, databases, debugging, and deployment workflows.

### TECHNICAL SKILLS

---

**Front-End:** React.js, JavaScript (ES6+), JSX, HTML5, CSS3, Tailwind CSS, jQuery, AJAX, responsive web design

**React Ecosystem:** Functional components, React Hooks, component-based architecture, props and state, Context API, React Router, reusable UI components

**Back-End:** Node.js, Express.js, PHP, CodeIgniter, REST API integration, authentication concepts, client-server architecture

**Databases:** MongoDB, PostgreSQL, MySQL, SQL, ClickHouse, database querying and data integration

**Engineering:** Git, GitHub, Docker, Linux, Jira, DBeaver, debugging, defect resolution, code review, Agile delivery

**Quality:** Cross-browser compatibility, responsive testing, API testing concepts, performance optimization, accessibility fundamentals

### PROFESSIONAL EXPERIENCE

---

#### Software Developer | Galfar Engineering and Contracting WLL Emirates

*May 2025 - Present | Abu Dhabi, UAE*

- Implement new application features and resolve defects to improve software functionality, performance, usability, and operational reliability.
- Analyze reported issues, reproduce defects, identify root causes, and deliver maintainable fixes across web application layers.
- Collaborate with stakeholders to clarify requirements, validate changes, and support stable releases in a business-critical environment.
- Contribute to front-end and full-stack development using modern web technologies, reusable code practices, and structured version control workflows.

#### Associate Software Engineer | CapeStart Software Private Ltd.

*December 2021 - May 2025 | Nagercoil, India*

- Implemented and demonstrated new features for a US-based, globally used email product, improving product functionality and user experience.
- Resolved 50+ high-priority customer-reported production issues and critical defects, strengthening reliability and reducing support workload.
- Investigated application behavior across UI, service, and data layers; documented findings and coordinated fixes with engineering and product teams.
- Participated in feature validation, regression testing, defect triage, release support, and continuous improvement activities.
- Contributed to a PHP version upgrade and helped implement production monitoring to support stable service for key applications.
- Served as interim Scrum Lead, facilitating daily stand-ups and enhancing cross-team coordination to ensure on-time sprint deliverables.
- Partnered with Product Managers to define and scope complex features, translating requirements into actionable development tasks.

## PROFESSIONAL EXPERIENCE - CONTINUED

---

### Product Coordinator - Fullintel | CapeStart Software Private Ltd.

January 2021 - December 2021 | Nagercoil, India

- Contributed to feature implementation and functional testing to improve product usability and application quality.
- Bridged communication between users, product stakeholders, and developers by clarifying requirements, reproducing issues, and validating solutions.
- Supported issue prioritization, user acceptance activities, and delivery coordination to improve customer satisfaction.

## SELECTED PROJECTS

---

### Millow - Real Estate Web Application | [millow-frontend.onrender.com](https://millow-frontend.onrender.com)

Built a Zillow-inspired property discovery interface with searchable listings and a responsive, component-oriented user experience.

*Technologies: React.js, JavaScript, JSX, responsive UI, API integration*

### InnovateHub - Public Forum | [innovatehub-q233.onrender.com](https://innovatehub-q233.onrender.com)

Developed a community forum experience for publishing and interacting with public discussions.

*Technologies: React.js, JavaScript, Node.js, Express.js, MongoDB*

### Techno Computers - E-commerce | [technocomputers.onrender.com](https://technocomputers.onrender.com)

Created an online storefront experience for browsing products and supporting a digital purchase journey.

*Technologies: JavaScript, responsive design, full-stack web development*

### IV Chat - Real-Time Chat Application | [iv-chat.onrender.com](https://iv-chat.onrender.com)

Developed a browser-based chat experience focused on real-time user communication and responsive interaction.

*Technologies: React.js, Node.js, Express.js, real-time communication concepts*

### Ivin Shop - Shopping Cart | [ivin-shop.netlify.app](https://ivin-shop.netlify.app)

Built a responsive shopping-cart application demonstrating reusable UI components, cart state updates, and front-end deployment.

*Technologies: React.js, JavaScript, JSX, CSS3, Netlify*

## ACHIEVEMENTS

---

- Superstar Award - Q4 2022, CapeStart Software Private Ltd.
- Superstar of the Quarter - Q3 2021, CapeStart Software Private Ltd.

## EDUCATION

---

**Bachelor of Engineering in Computer Science and Engineering** | St. Joseph's College of Engineering, Chennai | 2015 - 2019 | CGPA: 7.70/10

**Higher Secondary Certificate** | 2015 | 95% (1140/1200)

**Secondary School Leaving Certificate** | 2013 | 96.2% (481/500)
